

Pumpkins

A Halloween Craft

Materials Needed:

- one piece of orange card stock, standard size
- one piece of black card stock, standard size
- pencil
- ruler
- scissors
- glue stick

Vocabulary:

- pumpkin
- stem
- ears
- mouth
- strips
- half-circle
- triangle

Instructions:

1. Cut four (4) strips of orange card stock, each two centimeters (2 cm) wide. Cut them from the LONG side of the paper, NOT the short side.
2. Arrange strips like this:  and glue them together in the middle. Make sure to press the strips together and hold them for a few seconds while the glue dries.
3. Glue the ends of the strips together, making them into circles. Again, make sure to press the ends together and hold them for a few seconds while the glue dries.
4. From the black card stock, cut two small triangles and one half circle.
5. Glue the triangles to the pumpkin; they are the eyes.
6. Glue the half circle under the eyes; it is the mouth.
7. From the black scraps, cut a stem for the pumpkin. Fold the bottom of the stem to make a little tab. Glue the tab to the top of the pumpkin.
